September 28, 2026

Classroom News

Hello, Families!

We're settling into a great rhythm in the classroom! In math, students are working on measuring to the nearest inch and practicing multi-digit subtraction with regrouping. Feel free to find examples of measuring and numbers all around you—cooking, building, shopping, measuring furniture, noticing prices, counting change, etc. There are lots of opportunities to make math part of everyday life!

We're also beginning our preparations for the Día de Muertos Festival! I'm excited to get started and see what the students create together.

One quick field trip request: **please respond to the emailed version of this newsletter and let me know whether your student uses a booster seat, a car seat, or no booster/car seat.** This will help me plan ahead for our upcoming field trips.

Thank you!

~Ashley!

If you haven't already, please sign up for Conferences! Can't wait to see you all!

Other Stuff

Life Skill of the Month: Integrity!

Student of the Week: David!

The student of the week will be sent an all about me page. Please help support them in turning it in with their homework folder on Friday, as they will present it to the class that afternoon!
